

EMERGENCY ORDER

I, Don Gerard, in my capacity as the Liquor Commissioner for the City of Champaign, Illinois, and pursuant to authority granted me in Section 5-91(9) of the Champaign Municipal Code, 1985 as amended, entitled “Emergency powers,” do hereby find that there may be a threat to the public health, safety and welfare from activities by members of the public within the geographic areas described herein in response to the promotion of an event that has become known locally as “Unofficial St. Patrick’s Day.” I base this finding on the following facts:

1. In past years, this event has been promoted, scheduled and conducted over a specific 24 to 48 hour period of time by members of the public and liquor license holders located in the geographic area described below, for at least the last **nine** years, on dates within two or three weeks of the actual St. Patrick’s Day.
2. Again this year, the event is being promoted on Facebook and informally among UI students, alumni, and on other college campuses.
3. The event has historically included an unusual extension of hours of operations by participating Class A and Class R liquor license holders, including opening to the public and serving alcoholic beverages as early as 8:00 a.m. on the day or days in question.
4. The event has included the promotion and implementation on the days in question of reduced pricing specials on the purchase of alcoholic beverages by participating license holders.
5. On the day or days during which the event has occurred, there has generally been a significant increase in the number of arrests within the City of intoxicated persons on public property for committing offenses resulting in personal injuries and damage to property, such as disorderly conduct, battery and criminal damage to property, and a significant increase in hospital emergency room admissions of persons experiencing the adverse effects of dangerous levels of alcohol intoxication.
6. On the day or days during which the event has occurred, there has been a significant increase in the sale of alcoholic beverages from Class P licensees, particularly those located within the said geographic area.

I have further received reliable information that this year, “Unofficial St. Patrick’s Day” will be conducted within the City limits on **Friday, March 2, 2012** and into the early morning hours of **Saturday, March 3, 2012**. Additionally, this year, a potential exists for the event to extend through the early morning hours of **Sunday, March 4, 2012**. Based upon said findings, I hereby enter the following emergency order:
